

SMARTERM IBM

DUAL-HOST ACCESS TO IBM MAINFRAMES AND IBM AS/400S (3270 AND 5250)

SmarTerm PC-to-host connectivity software delivers precise terminal emulation and high-performance access to data and applications residing on IBM mainframe, AS/400, Unix, Digital, and Data General host computing systems. The SmarTerm product line includes advanced solutions for access to a single type of host, multiple host systems, or hosts in multi-user Windows environments – all featuring powerful tools for easy deployment, flexible use, and simple administration.
