

TUN PLUS 2009 ALL ACCESS

COMPREHENSIVE ACCESS SOLUTION

The Tun Plus All-Access License gives IT/IS managers complete freedom to meet virtually any host access requirement using a single product consisting of three powerful solutions:

Tun Plus PC-to-Host : comprehensive host, database, and network-utility access for any PC running Windows XP, Vista and Windows 7

Tun Plus Web-to-Host : the same multi-resource access through leading web browsers via Java and ActiveX technologies

Tun Plus Multi-User Windows : complete resource access for virtually any client type via Citrix WinFrame/MetaFrame and Windows Terminal Server with or without MetaFrame.

With the node-based All-Access License, organizations can deploy these solutions in any combination to meet the needs of all their varied users – or migrate to new solutions as needs evolve.
