

TUN PLUS 2009 WEB ACCESS

COMPREHENSIVE ACCESS SOLUTION, FROM A BROWSER ANYWHERE

The Tun Plus Web-Thin License gives IT/IS managers the flexibility to meet many of their organization's host access requirements with either of the "thin" Tun Plus solutions:

Tun Plus Web-to-Host : comprehensive host, database, and network-utility access through leading web browsers via Java and ActiveX technologies.

Tun Plus Multi-User Windows : the same multi-resource access for virtually any client type via Citrix WinFrame/MetaFrame and Windows Terminal Server with or without MetaFrame

The concurrency-based Web-Thin License allows organizations to deploy either of these server-based technologies to provide critical enterprise access while reducing impact on network and human resources.
